|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----|----------|
| <b>Adding R454B Refrigerant to the system</b><br>Arrived to residence for no cool call, found the system frozen. thawed the system, checked pressures and added 2 pounds of the new refrigerant (R454B). couldn't find any leak in the system. look like refrigerant was missing because of a long lineset. | \$125.00 | 2   | \$250.00 |
